

# Sneak Peek

"Don't be afraid of Change, It is Leading you to a New Beginning" -Anonymous

## Freshers' Flight

One of the most awaited day for the new students in Anubhuti is the Fresher's day. This year the Fresher's day was organized on 30<sup>th</sup> of July. All the new students were waiting eagerly for this day. They had worked really hard for it. It was initially the first time for the new students on the stage of Anubhuti. Everyone was excited to see the performances of the

talented new comers. They got on the stage and put it on fire. It was an amazing experience for us as we got to showcase our talents. The programme ended on a privileged note with an amazing dinner prepared by the 12<sup>th</sup> grade girls.

- Mallika Agrawal, Grade XI

## ALOHA-What Matters is You

Experience things and you will have things at a go. Books only teach us 'What to do?' but experiencing paves a path to connect with reality. Aloha is a step towards it, insisted by J.P.Rao sir and for the students, that's something unique about our school. What are the objectives of Aloha? Fulfilling the needs and wants of students on various occasions, is our primary motive. As a company, we even aim at earning profits. We worked hard on the commencement of the company and later for the production of goods. The best part was, we were enjoying our work. On 7<sup>th</sup> of August, that is Friendship Day, the opening ceremony of our company took place and it was also the day of our first sale. Our company flourished with flying colours on that special day. We sold many different and creative products. Aloha is standing for the Anubhutians whenever they will need us. Hope you enjoy, when we come back with our second and a better sale. We would like to thank J.P.Rao sir, Ashok sir, Swagat sir and Anjali akka, who helped us through out.

-Yash Agarawal, Darshan Chordiya, Grade XII

## The Word Play

An English workshop for class 12<sup>th</sup> was held from 12<sup>th</sup> to 15<sup>th</sup> August. Two resource persons, Kuntala Sengupta and Manjima Biswas had come to interact and teach us some techniques of drama. On the first day we were asked to act on any topic of our wish and on the second day we were introduced to drama and its variants. We also enacted several short plays. On the third day we had to combine and set all the plays together and also enact a scene each from 'Arms and the Man'. The skits we had performed were later presented on stage on the 15<sup>th</sup> of August. The workshop experience will surely help us in the future as it taught us about onomatopoeic sounds, method of communication on stage, and much more.

- **Rajsi Bafna**, Grade XII

## The Number Game!

Interesting puzzles, tricky mind games, creative origami, and the best part - enjoyment!!! We got a wonderful opportunity to interact with Sri Suryanarayana, who is a mathematician and has been to several countries. He imparted us with the knowledge of new tricks and methods to solve math. He taught us how to play with numbers. This was a marvellous experience and a remarkable workshop.

- **Sanjana Wadhvani**, Grade X

## The Great Struggle

On the occasion of India's 70<sup>th</sup> Independence Day we started our day with the flag hoisting in the morning. The chief guest for the day was Mr. Anand Gupte, a well-known famous Marathi artist. This was followed by a programme by the students of class 10<sup>th</sup> and some students of class 11<sup>th</sup>. The play was based on India's unique struggle for freedom. It was named as "The Journey to Freedom." The play was directed by Abira akka and Harshal sir. It depicted some of the important events like the Revolt of 1857, Swadeshi and Boycott Act, the Famous Jallianwala Bagh, Non-cooperation Act, Chauri Chaura, Civil Disobedience Movement and the Quit India Movement. As Anubhuti believes in experiential learning, this play was an example of it as it helped the 10<sup>th</sup> standard students.

After this play there was a patriotic dance. We left the audience spellbound and patriotic. This was followed by the 12<sup>th</sup> class students performance. They had put up a play based on Greek mythology which was unique in its own way. This idea was given by the resource people who had come for a drama workshop. In the evening we had a marathon, Run for Freedom in which all the students participated with sportsmen spirit. This day filled up the hearts with a nationalistic fervor.

-Akanksha Asanare, Grade XI

## Into the Police World

On 29<sup>th</sup> of August, we Anubhutians were honoured to welcome an esteemed dignitary in the school, Mr. Arup Patnaik who was the 36<sup>th</sup> Commissioner of Mumbai and one of the most dynamic IPS officers of Maharashtra. He had been awarded with several prestigious awards. He gave us an insight into the police system which is rare but we were fortunate to

have him talk about it. The interaction ended with a question session. Mr. Patnaik's kind words and distinguished career will act as an inspiration to Anubhutians.

- Riya Jain, Grade X

## Enhancement of Abilities

Activities are the best source of refreshment. They help us to reduce our stress and brain testing activities specially act as a lubricant for mind sharpening. Such brain testing activities were introduced to students of grade 11 during CTP class. These few activities were organized by our dear class teacher Swagat Sir :- forming a Pyramid by using a newspaper, catching the bottle in which we were asked to do the opposite of the instruction given, memory game in which 16 different words of no relations with each other were written in a series and we were told to memorize it. Whereas the twist was brought in the game when sir, instead of asking the word asked us the number of the words, chits for friends in which we were asked to write a task for our friend but the game was twisted and we had to do whatever we wrote on that chit. All these activities were really very refreshing. At last sir made the activities more interesting by awarding prizes to the winner.

- **Tanu Kankaria**, Grade XI

## On the border

On 14<sup>th</sup> of August we were privileged to have amidst us Mr. Yogendra Singh Yadav, who is a young, brave army officer. He was sixteen years old when he joined the army and three years later was asked to go for the Kargil War. There were only 21 army officers who were appointed from his battalion. Out of all the 21 there was only one audacious soul who survived that is Paramveer Chakra winner, Subedar Yogendra Singh Yadav. The Pakistani combatants shot 19 bullets on him, but yet he survived as he had a strong will to save his motherland. He now serves as an inspiration to the youth of this country. We will continue to admire his great works.

- **Aatman Jain**, Grade VII

## Janmashtami

The day our beloved Lord Krishna was born. A festival of happiness and excitement. We celebrated it on August 25<sup>th</sup>. Since one week, we all were eagerly waiting for this day. On the occasion of Janmashtami, Class 7<sup>th</sup> students took up the assembly for the celebration of the festival. They mainly focused on the birth of Lord Krishna which was followed by a dance. In the evening, we were asked to assemble for the "Dahi Handi". The songs which were played were like the icing on the cake. As soon as we were given the go ahead, we all rushed into our groups and started planning strategies for conquering the quest at hand. It was followed by a full scale war in which mud and water were used as the main weapons.

- Dhruvi Lunker, Grade VIII

## Tissue Culture - A Learning Experience

On 4<sup>th</sup> and 5<sup>th</sup> of August 2016 grade 8 students were in the conference room of world's No.1 Jain Tissue Culture lab with their biology teacher Jayshree Akka; imbibing knowledge and looking forward to try their hands on the techniques of plant tissue culture through callus culture. They got a close look of the different ex-plants like seeds, leaves, apical and axillary buds used for vegetative propagation of plant by this method. They learned about a marine algae called agar which is the most important ingredient in the used nutrient media on which the ex-plant is grown. They were surprised to know that coal is used as one of the ingredients in the growing media. They learned every detail from the lab to farm journey of a sapling from Dr. Jeetendra Patil. They got to see the functioning of the rare equipment and apparatuses like micropipette, forceps, stirrer, autoclave, pH meter, media mixer etc. used in the process. Vegetative propagation of

plants in Jain Tissue culture lab is done successfully for banana, pomegranate, strawberry, guava etc. Students were enthralled by the scientific idea that has changed the life of millions of farmers around the world. Thanks to the organizers.

- Aditya, Grade VIII

## Mission Wakayama

For the third consecutive year Anubhuti team carried the fragrance of Indian culture in the frontiers of far East Asia, Japan. This year the crusader was our teacher Swapna Akka along with Viraj Bang. The details of Mission Wakayama in their words:

"Swapna Akka and I had been to Japan to attend Asian and Oceanian High School Forum which was held at Wakayama prefecture in Japan. This forum included events such as a stay with a Japanese family and my family was the Kashio's family, a trip to Koyasan which is a UNESCO world heritage site near Wakayama city the palace surrounded by eight low peaks, introduction speeches by the students representatives of their respective countries, soon after this the sectional meeting was held which was preceded under the two chairperson. Our topic was IT and communication. The chairperson had to make a new presentation based on our exhibitions emphasizing on the important points, this was to be delivered during the general meeting and there would be open questions from the public to the representatives of the countries. After the general assembly we had a quiz in which my team secured third place. We were taken to a reception conducted by the governor of Wakayama, where we met many distinguished guests such as the head of Indian Embassy of Osaka, head of Korean Embassy of Osaka, and the governor himself. The next day was the cultural exchange with Serin High School, a visit to a shrine and the Wakayama Marina City. All these

places were mesmerizing and the memories accompanied us back to our mother land India. I had a great time, my trip to Japan was haunting, memorable and astonishing". Wow, that is really commendable. Kudos to Viraj and Swapna akka! You both really raised the flag of Anubhuti school in the cluster of Asian schools.

- Viraj Bang, Grade XI

# Snappies

## News Flash

- The students of Business Studies from class 11<sup>th</sup> prepared the handbooks of different companies on 4<sup>th</sup> August 2016.
- Three interns Arishu, Govind and Akash from Lakshmbai National Institute of Physical Education, Gwalior were in our school from 1<sup>st</sup> July to 12<sup>th</sup> August. And they also held an interhouse basketball tournament.
- The school football team had recently participated in a football tournament which was held at Nashik.
- On 12<sup>th</sup> August all the class 12<sup>th</sup> Business studies students went to the Time Gate to Meet Mr. B. M Khabmyat Sir (PRO) of the School.
- On 29<sup>th</sup> and 31<sup>st</sup> August the junior and senior basketball players had taken part in the district competition in Chalisgaon. Junior girls had triumphed. Kudos!

## The Road Not Taken...

"Change is the only constant" are the wise words used by the previous editorial team in their last issue. Well, now they have passed down the mantle to us and it is our job to make sure we kick up a notch!

I have always wondered, what is the feeling of anxiety that fills one as he/she walks into the unknown, better known as a feel of change or feel of being different, different in the sense - unique. And trust us when we say things are going to be different enough to leave a dent, no - a crater in the life of "Anubhutians" this year on and that's a promise!

Now we cannot guarantee that this transition will be smooth and easy but we assure you that things are going to be more interesting from now on and we will leave you craving for the next edition every month! This is all because some say change is good while other may contradict, but change will always come and it's in yours and change's hands to make a difference.
